

END USER SUPPORT POLICY

This End User Support Policy governs the support that Proven Optics, LLC will provide for its Subscription Service and may be updated from time to time. End User Support is contingent on End User providing Proven Optics, LLC with administrative rights to End User's existing ServiceNow sub-production instance(s). End User may restrict access by Proven Optics, LLC support personnel to only those individuals authorized by End User. All obligations of Proven Optics, LLC under the Agreement which require Proven Optics, LLC access to End User's ServiceNow sub-production instance(s), including the provision of End User Support shall be preconditioned upon Proven Optics, LLC receiving such access and proportionately limited to the extent access is denied.

Scope

The purpose of End User Support is to resolve defects that cause the Subscription Service to perform not in substantial conformance to the release notes and/or user guides as provided for in the Documentation. A resolution to a defect may consist of a fix, workaround or other relief if Proven Optics, LLC deems reasonable. For the avoidance of doubt, End User Support is not required to provide resolutions for immaterial defects or defects due to modifications of the Subscription Service (or modifications of the ServiceNow Platform that creates a defect in Proven Optics, LLC's Subscription Service) made by any person other than Proven Optics, LLC or a person acting at Proven Optics, LLC's direction. If at any time, Proven Optics, LLC determines that the defect is the responsibility of ServiceNow, Proven Optics, LLC will transition End User to the ServiceNow End User support team for resolution. Proven Optics, LLC is under no obligation and is not authorized to provide End User Support for the ServiceNow Platform.

End User Support does not include:

- Implementation services
- Integration services
- Customization services
- Custom software development training
- Assistance with administrative functions
- Technical Account Management (TAM) services

Business Hours

End User Support is available 24 hours a day, 7 days a week, including all holidays.

PROVEN OPTICS, LLC CUSTOMER PORTAL

End User may access the Proven Optics, LLC Customer Portal at www.provenoptics.com

Incident Severity

Case severity for a defect is determined using the guidelines below:

Severity Level	Description	Example
SL1 (Critical)	Subscription Service is unavailable.	System is down and user is unable to access or use it.
SL2 (High)	Major functionality of the product is not working and it has a high impact on the business. High performance degradation.	Unable to run Alignment calculator after allocation data import. Unable create a new budget line item.
SL3 (Moderate)	Minor functionality of the product is not working correctly and it has a low impact on the business.	Unable to align import data to the correct columns.
SL4 (Low)	Borderline issue that could become enhancements.	Remove button from the UI. Rename field labels.

Response Times

All support requests are tracked on-line and can be viewed by End User's Authorized Contacts (as defined below).

Severity	Target Response Times
S1	30 Minutes
S2	2 Hours
S3	1 Business Day
S4	N/A

End User Responsibilities

End User's obligations are as follows:

- End User agrees to receive from Proven Optics, LLC communications via email, phone or through the Customer Care Portal regarding the Subscription Service
- End User shall appoint no more than five (5) contacts ("***End User Authorized Contacts***") to engage End User Support for questions and/or technical issues.
- Only End User Authorized Contacts are authorized to contact End User Support
- End User must ensure the information for these contacts is current in the Proven Optics, LLC Customer Care Portal
- End User Authorized Contacts are trained on the use and administration of the Subscription Service
- End User shall cooperate to enable Proven Optics, LLC to deliver the Subscription Service and support for the service
- End User is solely responsible for the use of the Subscription Service by its authorized users.
